Education

Technological University Dublin — **Completed 2026**
BSc (Hons) Computer Science - First Class Honours | GPA: 3.6 — *Dublin, Ireland*

- Selected results: Advanced Web Mapping 85% (A1), Final Year Project 79% (A2), Advanced Security (A2), Forensics (A2), Enterprise Application Development (B1).
- Relevant study: Databases, Software Engineering, Networking, Security and Cloud Technologies.

LOETB — **2022**
QQI Level 5, Computer Systems and Networks - Distinction — *Ireland*

Experience

Ocuco — **Jan. 2025 - Sep. 2025**
Professional Services Engineer (Degree Placement) — *Ireland*

- Contacted over 100 customers across Ireland to support an Infobip phone and text system update, providing step-by-step guidance on the required actions.
- Investigated software and data issues using structured troubleshooting and SQL.
- Managed support issues in JIRA and maintained clear customer updates.
- Created technical documentation and user guidance for technical and non-technical audiences.

SAM360 — **2021 - 2022**
AI Data Extraction Assistant

- Supported an AI-assisted web data extraction workflow using Python and web scraping, evaluating outputs and improving data usability.

Baggot Partnership, Clara — **1995 - 2021**
Partner / Manager — *Co. Offaly, Ireland*

- Held commercial and operational responsibility across food retail, hospitality and funeral services, negotiated supplier rebates and procurement terms, contributing to a 10% reduction in procurement costs.
- Led operational systems upgrades, supported staff through change, and created Facebook/video content to strengthen customer engagement and online sales.
- Prepared sponsorship proposals and built long-term relationships with customers, suppliers, staff and community stakeholders.

Projects

Stay & Trek — **Final Year Project**
Full-Stack Geospatial Web Application & Mobile Prototype
Python, Django, Django REST Framework, PostgreSQL, SQL, JavaScript, Docker, Google Cloud Platform

- Conducted user interviews to clarify needs, designed, developed and tested REST APIs for the web platform and mobile prototype.
- Modelled and queried data with PostgreSQL/SQL, integrated external APIs, and deployed cloud-hosted infrastructure using Docker and Google Cloud Platform.

Additional Experience

Community Heritage & Tourism — **2017 – 2025**
Co. Offaly, Ireland

- Coordinated advertising campaigns, supported community festivals & events designed to promote and grow local tourism.

Community & Fundraising Leadership — **2011 – 2015**
Co. Offaly, Ireland

- Co-founded and grew a Movember campaign to 90 participants, organising fundraising events, sponsorship activity and community engagement in support of men's health.
